https://www.linkedin.com/in/ift2abir

SUMMARY

Detail-oriented Software Engineering undergraduate with a strong foundation in programming, algorithmic problem-solving, and front-end web development. Skilled in Python, C, HTML5, and CSS3, with a keen interest in Data Science Engineering. Known for strong analytical thinking, clean coding practices, and building responsive user interfaces. Eager to leverage technical skills and academic knowledge to contribute to innovative IT and software engineering teams.

EDUCATION

B.Sc. in Software Engineering
Daffodil International University
2025 – Present

Higher Secondary Certificate (Science)
Govt. Shaheed Suhrawardy College, Dhaka
2024

SKILLS

- Python & C Programming
- HTML5 & CSS3
- Algorithmic Problem-Solving
- Data Structures Fundamentals
- Git & GitHub
- VS Code & AI-Assisted Dev Tools
- MS Office Suite (Word, Excel, PPT)
- Analytical & Critical Thinking

LANGUAGE

- Bengali (Native)
- English (Professional Working Proficiency)

EXPERIENCE

TECHNICAL PROJECTS — 2026

Personal Portfolio Website

- Designed and developed a modern, dark-themed personal portfolio website featuring glassmorphic UI cards and glowing cyan accents.
- Built clean, semantic web structures using HTML5 and styled responsive layouts using CSS3.
- Integrated academic details, skill showcases, and GitHub repositories into a user-friendly interface.
- Utilized VS Code with AI-assisted development tools and Git for version control.

Algorithmic Problem-Solving & Web Training — 2025-Present

Self-Directed Learning & Programming Hero

- Maintained an active GitHub repository for C programming and Python, focusing on algorithms, loops, functions, and data structures fundamentals.
- Enrolled in professional web development training with Programming Hero to build industry-standard web applications.
- Attended GitHub Dev Days Dhaka 2026 to learn modern software engineering workflows and open-source collaboration.

Front-End Facebook Clone

UI/UX Web Project | HTML5 & CSS3

- Created a pixel-accurate front-end replica of the Facebook web interface from scratch using HTML5 and CSS3.
- Implemented modern CSS layout techniques (Flexbox and Grid) to align navigation bars, feeds, and sidebars accurately.
